TRADE LIST

JANUARY, 1905

THORBURN'S GREAT NEW POTATO NOROTON BEAUTY

It is the earliest Potato ever grown, being sixteen days earlier than the Early Rose!

Yet it is fully as productive as any main-crop or late sort.

It is handsomer in appearance and more uniform in size and shape than any other variety.

The tubers mature simultaneously, a fact which, combined with its extreme earliness, practically does away with danger from blight or disease or bugs.

Its table quality is superb and it keeps longer than any other sort, early or late.

It is the best all-round Potato in existence.

One pound	\$0 40	Per peck (15 lbs.)	\$4 00
Two pounds	70	Per half-bushel (30 lbs.)	7 50

NEW YORK

TERMS

NEW YORK, January 1, 1905.

ACCOUNTS ARE DUE net on June 1st, 1905, without regard to the date of purchase: or a discount of one per cent a month will be allowed on all payments made before June 1st. Goods purchased after June 1st are Net Cash on October 1st, and after October 1st, Net Cash on January 1st, following. Grains, Grass, Clover and Canary Seed, Onion Sets and Potatoes, Raffia and Fertilizers are Net Cash.

References are requested from unknown correspondents.

The quotations in this list are intended for the **Wholesale Trade** only, and are subject to change without notice. All prices apply only to the quantities quoted—10 pounds or 10 bushels, and 1 pound or 1 bushel. Smaller quantities will be charged at a higher rate, and **no seed will be invoiced at less than 10 cents for a quarter-pound.** Where two grades are quoted the best is always sent, unless the order specifies otherwise.

In the absence of instructions when shipping, insurance will be effected at our discretion.

For over fifty years we have made a specialty of Vegetable and Flower Seeds in bulk, as well as of Peas, Beans, and Sweet Corn. We also put up, fresh every year, garden seeds in papers for retailing. All orders are executed with great care and dispatch.

We have discontinued sending out travelers to solicit orders, and our customers are assured that they will have the benefit of the consequent saving in the prices and quality of our goods.

Messrs. J. M. Thorburn & Co. give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

THORBURN'S PERFECT SEED DISPLAY CABINET

This novel cabinet is 30 inches high and only 15 inches wide—a convenient size for standing on a counter. It has 40 compartments for vegetable, and 39 for flower seeds. Each compartment holds 10 (or more) packets. The cabinet will thus hold 790 (or more) packets in 79 distinct sorts, the whole packet being visible. No matter how few packets are in the compartments, they can stand to the front, and the same uniform display is maintained as well when the cabinet is nearly empty as when it is full. When exhibited in this cabinet, our handsome colored lithographic packets will sell themselves.

Price, \$4, free on board; no charge for boxing.

HANDSOME COLORED LITHOGRAPHIC PACKETS

We offer the following varieties of vegetable and flower seeds in handsome colored lithographic packets. These packets are not to be confounded with the cheap sorts usually sold. They are pu

up fresh by ourselves, of our best seeds, and contain much more seed than is generally supplied in such papers

J. M. THORBURN & CO.'S

Trade Price-List for 1905

 A Telegraphic Cipher is attached to each article, which will enable orders to be sent by wire at comparatively little expense. For example:

Two Acid means two bushels Extra-Early Valentine Beans; or Fifty Alpaca means fifty pounds Egyptian Beet, etc.

 The Code and Cipher herein annul all formerly printed.

 On certain varieties in large lots we are prepared to quote lower prices by mail or telegraph.

ALBERT'S PLANT-FOOD

THE BEST FERTILIZER FOR HOUSE PLANTS

The style of the very handsome tins in which this celebrated German Plant-food is put up is shown by our cut. Full directions for application are given on the outside of each tin.

It is a scientific preparation containing in a highly concentrated and easily soluble form the food elements required by plants. It is odorless, clean to handle, quick in its action, and unequalled in its effects. Inside each tin is a small spoon holding the exact quantity required for dissolving in a quart of water.

We are sole agents for the United States, and, as an inducement to catalogue a really genuine article that will sell well, we offer it at the following low prices:

Per 100 tins, \$9; per case of 200 tins, \$17. Electros free with order for 100 tins.

The retail price is 15 cts. per tin, or by mail 8 cts. extra.
